Download and install this font: [Leelawadee UI Bold](#) [Leelawadee UI Semilight](#)

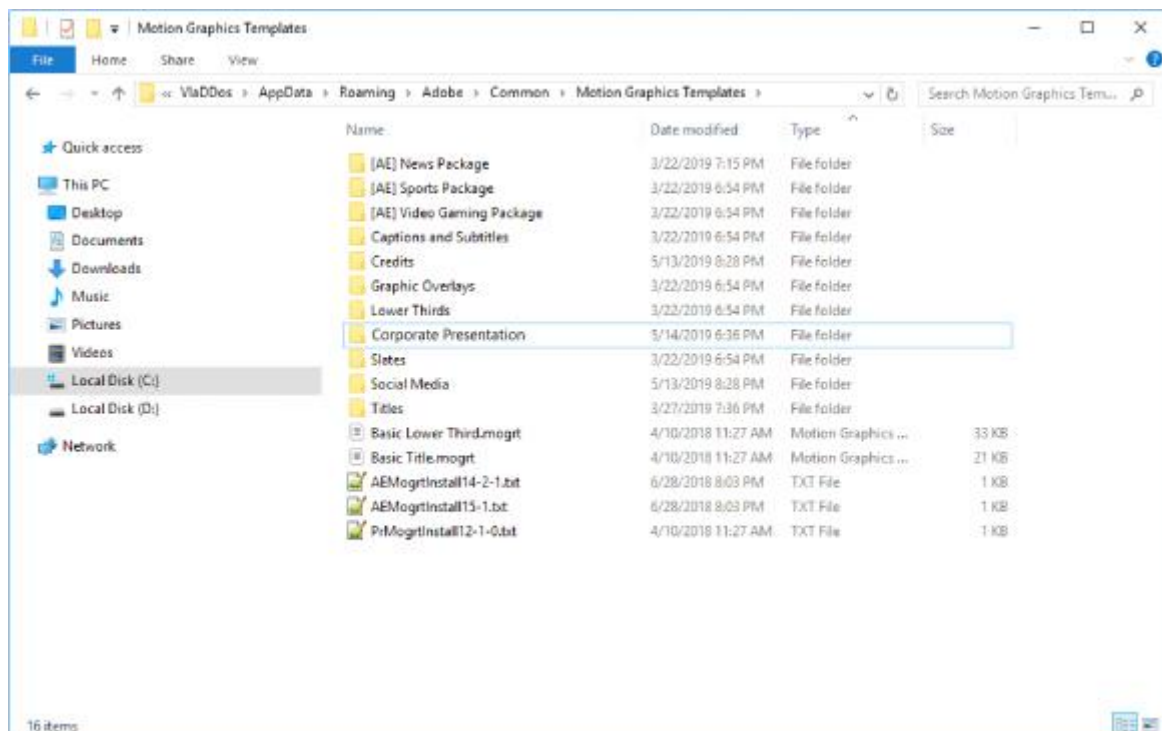

Essential Graphics

To Install the package please follow these steps:

1. Please unzip the file you have downloaded from Envato (VideoHive)
2. Find this folder: **Corporate Presentation**
3. Copy this folder
4. Paste it into this path:

Windows: C:\Users\"your username"\AppData\Roaming\Adobe\Common\Motion Graphics Templates

Mac: user/"your name"/Library/Application Support/ Adobe/Common/Motion Graphics Templates

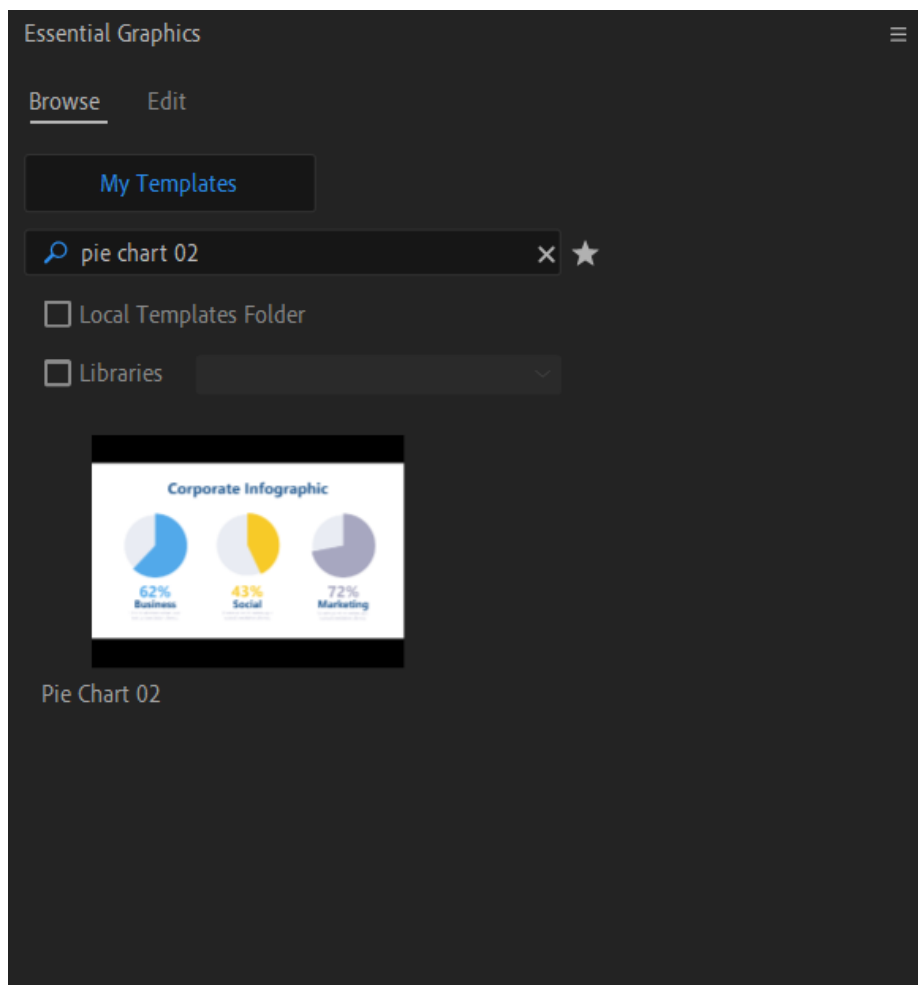

5. Open Premiere Pro and use Essential Graphics Panel

Mac users, if you can't find the path above please press Shift + Command + G and paste the path above on it (don't forget to replace "your name" with your name!)

Finding your Pictograms

In the Essential Graphics window, paste the copied name of the slide or icons into the search box.

Customization

To customize the added preset, select the slide/element and change all the available items in the **Essential Graphics** window.

For example, here you can set up your values, color and visibility of some elements.
